Parliamentary Library Read—2 Records

Edmonton Bulletin.

Vol. XXV. No. 1. EDMONTON, ALBERTA MONDAY, NOVEMBER 3, 1902. SEMI-WEEKLY 8 PAGES

TELEGRAPHIC.

DEATH.

Winnipeg, Nov. 3.

Jas. Lichener, president of the British Columbia Copper Co., died in New York.

SUICIDE

A boy at Pipestone, Man., committed suicide by jumping into a bonfire.

ACCIDENT

F. Brown, of Hamilton, Ont., was perhaps fatally injured by a revolver shot.

LYNCH LAW

A mob of 4,000 people burned a negro at Sardis, Miss.

WHEAT LOWER

Saturday's wheat prices closed lower.

STEEL INDUSTRY FOR TORONTO

A big steel industry is projected for Toronto.

DOUKHOBORS IN MANITOBA

The Doukhobor pilgrims have crossed the line into Manitoba.

BOER DELEGATES IN WINNIPEG

The Boer delegates from South Africa are visiting in Winnipeg.

WINNIPEG VITAL STATISTICS

Vital statistics in Winnipeg during October totalled births 123, deaths 76, marriages 70.

REAL ESTATE HIGH IN WINNIPEG

Owners of property in Winnipeg east of Main street refused an offer of $45,000 an acre for a block of three acres.

EASTERN CAPITALISTS TO BUILD RAILWAYS IN THE WEST

Eastern capitalists desire to build a net work of railways through Manitoba and the Northwest Territories.

GENERAL.

The United States political campaign ended Saturday. Voting takes place to-morrow. Wall St. betting on New York State, favors O'Dell.

An Ottawa manufacturing firm has completed a $35,000 contract for South African shipment.

The United States treaty with Newfoundland, consists in reciprocity in fish and bait alone.

Emperor William received James Stokes, a leader in the Y. M. C. A. movement.

Sgr. Marconi has arrived at Sydney, C. B., and is installing the Table Bay station.

Surgeon Major T. Devine, of Winnipeg, has received the D. S. O.

Many new Manitoba companies have applied for incorporation.

THE MARKETS

Markets have been quiet the last week, farmers apparently taking advantages of the fine weather to get their plowing and other farm work done, and leaving their produce to be marketed when it freezes up.

Butter and eggs are in good demand, prices remaining stationary at 18 to 20 cents a lb. for the former and 20 cents a dozen for the latter.

There is still a strong demand for live hogs, the price being 5 1-2 to 5 3-4 cents.

Beef is worth 2 1-2 cents live.

Hay brings from $4.50 to $6 per ton.

Dealers quote 18 to 24 cents per bushel for oats, but very little is offering.

Wheat brings 53 cents for good samples. It is coming in quite freely and is mostly all grading high.

SUPREME COURT.

Two more criminal cases were disposed of Friday and Saturday. A Galician youth named Struczinski was acquitted on a charge of rape and R. Vance, charged with the theft of a horse, was also acquitted.

—Calgary Albertan, Oct. 31.—Mr. Percy Chapman and family leave tomorrow morning for Edmonton where they will in future reside. Mr. Chapman, for several years in the employ of the C. P. R., has severed his connection with the company and accepted a position on C. N. R. branch between Strathcona and Edmonton.

—Albertan. The latest of the many indications of Calgary's progress, comes from Chicago. Messrs. Van Wart & Bell, agents for Deering & Co., have been notified from Chicago that the mammoth dealers in agricultural machinery, etc., had decided to establish a central agency at Calgary.

—Johnson & Ednes have sold out the Eclipse stable on Fraser avenue to D. Latimer and Geo. Corey, who will conduct a livery and feed business under the firm name of Latimer & Corey. They intend putting in a number of new teams and rigs for livery purposes.

—Mrs. (Rev.) Forbes, of Fort Saskatchewan, went to Calgary this morning.

LOCAL

—Train on time.

—Guy Fawke's night Wednesday, Nov. 5th.

—Holly Ross went to Wetaskiwin this morning.

—The Imperial Bank has opened a branch at Regina.

—Rev. Mr. McQueen went to Weinskiwin, this morning.

—W. H. Cooper and C. Jardine drove out to Morinville this morning.

—The total receipts from the hospital ball and Saturday afternoon tea were $137.

—A. C. Fraser, manager of the Merchants Bank, went to Wetaskiwin this morning.

—The snow has made the roads heavy, loads sliding sideways when it is not level.

—Three rafts of lumber are being unloaded at the bar opposite the old electric light plant.

—Rev. Morton Smith, evangelist, occupied the pulpit of the Presbyterian church last night.

—A. Prince, of the land titles office, and son and Roy Royal went to Wetaskiwin this morning.

—Mrs. Jackson, of the Victoria Hotel, went to Wetaskiwin this morning to take a position in a hotel there.

—Harry Acres, V. S., leaves to-morrow morning for Regina to take a position on the N. W. M. P. force.

—A meeting of the hockey club will be held in R. Secord's office Wednesday night, to arrange business matters for the coming year.

—A. Pearce has been operating a small steamer on the river lately. It works splendidly. Last week he made a trip of 60 miles up the river.

—About $33,000 in taxes had been paid into the town treasury up to Friday evening, Oct 31, the last day on which the discount of 10 per cent could be obtained.

—The Woman's Hospital Aid society served tea in Robertson Hall on Saturday afternoon. There was a fair attendance of ladies, and a considerable sum was added to the ball receipts.

—It is impossible to state definitely when the electric lights will be turned on again as certain repairs are on the road, and everyone knows what the chances are for a C. P. R. delivery to arrive when expected. The delay may be a matter of days or weeks.

—The Royal Hotel, Strathcona, was in some danger on Saturday afternoon. A handsome fireplace adorns the office, and is set in the wall which divides the office from the bar room. The fire in this had in some way got into the dividing wall, and had made some headway before being noticed. It was soon brought under control, and no serious damage was done.

STONY PLAIN RESERVE

The long expected and anxiously awaited announcement of the sale of the two northern tiers of sections on the Stony Plain reserve is now before the public. There are fourteen sections in all. Tenders must be in Ottawa at noon on Wednesday, December 3rd, accompanied by five per cent. of the amount of the tender. The terms are one-quarter cash, and the balance in four equal annual instalments with interest at five per cent. There is no upset price. Each quarter section must be tendered on separately.

REGINA.

Leader, Oct. 30.

The public school re-opened on Monday morning with a small attendance of pupils.

Men started work on the 22nd inst. on the long distance telephone system extending between Moosomin and Wapella. Pay stations will be located at various points on the line, making it very convenient for farmers and others.

The members of the fourth estate will in future occupy a more elevated position while engaged in the task of reporting the proceedings of the legislative assembly, a gallery for press representatives having been erected in the recent addition made to the legislative chamber.

No less than half a dozen prairie fires, started by threshing engines or the ashes left by threshing engines, occurred in Moose Jaw district in the ten days ending Oct. 24th, some of them resulting in bad prairie fires and others burning grain stacks.

Western Assiniboia has this fall sustained the most widespread prairie fires scorching that has damaged the country for many years past. The present blackened waste extends over practically all the unoccupied territory south of the Soo line between North Portal and Medicine Hat, north of the main line between Moose Jaw and Medicine Hat, and both east and west of the P.A. branch between Lumsden and Saskatoon,—areas embracing thousands of square miles. The protection afforded by good fire guards was never before so well shown. While there have been some individual losses of hay and pasture, no really great catastrophes are reported, such as often occurred in former years in which ranchers or settlers lost everything.

The Doukhobors.

Portage Liberal.

Yorkton, Oct. 28, 10 p., m.—The situation now looks worse. The Doukhobor men declare God is telling them ro release the women, children and infirm, imprisoned in the immigration hall and other buildings by the Dominion immigration agents, and special constables are being sworn in and the riot act will be read if necessary.

Yorkton's telephone system extends for miles in every direction throughout the country, over which aid can be called on in any emergency. One hundred and fifty Italian laborers are employed on railway construction in the vicinity, but unless the Doukhobors' mania becomes more violent the aid of these will not be necessary.

It is reported that seven hundred more fanatics are camped in the neighborhood of Pollock's bridge seven miles out. These are more rampageous than the rest, being exalted with the exaltation of starvation. They are rolling on the prairie in the "Whirling Dervish" stage of religious frenzy. One woman had to be held while her famishing babe was given a draught of milk, which she endeavored to prevent. Many people are fearful as to the outcome and with all their gentleness these Doukhobors, who, though they do not shed blood, yet tell without a qualm of having buried alive priests of the Russian church, may be moved by a similar spirit in their present insane condition.

NEW ADVERTISEMENTS.

NOTICE.

On and after Nov. 1st., all coal must be paid for on delivery unless arranged for monthly settlements.

W. J. BALDWIN.

WANTED.

One large, or two small furnished rooms, without board in central locality.

L. ADAMSON,
1-2p. Post Office, Edmonton.

TO LET OR SELL.

2 new 6 roomed cottages, Fifth street, H. B. Reserve.

FROM 50 CENTS TO $1 50 PER GARMENT.
GOOD GROCERIES—ALWAYS FRESH.
JOHN W. MORRIS
McLEOD BLOCK.

HOSPITAL BALL.

The ball of Friday night in aid of the Public Hospital was another very pronounced success, worthy of its object and most satisfactory to the ladies who had the affair in charge. It was held in Robertson Hall. The evening was fine, the attendance good, and the costumes elegant. Mr. Barford presided at the piano. Tea, coffee, cake and sandwiches were passed around at midnight. Dancing was then resumed and continued until three o'clock.

WETASKIWIN.

Times, Oct. 30.

Robt. A. Lawrence, alias Elwyn F. Larson, pleaded guilty on the charge of forgery at Durand, Wis., on the 22nd instant and was sentenced to seven years in the penitentiary.

A heavy shower of rain fell in this district Tuesday evening, but the sun came out fine and warm Wednesday morning. There was also a heavy frost Tuesday night, but the fine fall we have had still continues and there is not the least sign of a change.

A. S. Rosenroll & Co. have erected a large building for the storing of lumber on their lot just south of the creamery. They have been busy the past week moving their stock, and will soon have everything conveniently and systematically arranged. They are also erecting a comfortable office at the corner of Railway street and Stanley street.

J. H. Walker, who was some months ago appointed meteorological observer by the Dominion government, received thermometers this week. They were made in the old country and are the very best that can be procured. Mr. Walker is having a suitable place fitted up for the accurate recording of the climatic conditions, and will commence taking the records in a few days.

RED DEER

Echo, Oct. 31.

The new addition to the public school is now nearly completed, and will be ready for use in a short time.

On Tuesday afternoon Mr. Edmond Perrier killed a golden eagle. The wings from tip to tip measured 7 feet 4 inches and was 3 feet 2 inches long.

Mr Scott, of Bay City, Mich., was in town on Friday last looking up a site for a pork packing establishment.

Geo. E. Martin, who has been out in South Africa for some time, returned to Red Deer this week.

The Red Deer Lumber Co., Ltd., sent their first gang of men to the bush this week. Several other gangs will follow later.

Threshing is in full swing, and in a few weeks the largest crop ever harvested in the Red Deer district will be in the granary. The grain will be marketed much earlier this year than common as the roads are in such a good condition.

A stock company has been organized for the purpose of erecting a rink for skating and other winter amusements on ice. The company has a capital of $5000, and will erect one of the best rinks west of Brandon. It will have two sheets of curling ice and a sheet of skating ice 50x175.

INNISFAIL

Free Lance, Oct. 23.

The anniversary services of the Olds Methodist church will be held on the 9th and 10th of November.

A number of deer have recently been seen in the neighborhood. The district around the junction of the Medicine and Red Deer rivers seems the most favored spot.

A serious prairie fire occurred in the neighborhood of Tindastoll on Friday afternoon last. A large acreage was burnt over, the flames being fanned to fury by the high wind blowing at the time the fire started. The residents turned out en masse to save their buildings and crops. At supper time the blaze was apparently got under control, but while the men were away the wind changed and the fire raged anew. Again the hardy farmers fought determinedly, some of them receiving severe burns, and late at night the blaze was finally extinguished at the bank of a creek. Between 15 and 20 stacks of hay were burned, but no buildings were destroyed. Messrs. Conline, Gillis and Pedro Bros., were the principal losers by the fire.

LETHBRIDGE.

News, Oct. 29.

Nine degrees of frost on Sunday night about put an end to many plants still flowering in the open, although in protected situations sweet peas, mignonette, pansies and other flowers still flaunt their perfume in the air.

Ripe raspberries gathered from the cane near the end of October appears to be almost incredible yet this is a pleasant experience that befel the News reporter yesterday afternoon, in Mr. E. J Hodder's garden. The canes were only planted last spring and the berries were of excellent flavor. We wonder if any part of the Banana belt can beat this.

The coroner's jury on the deaths of William Clarke and John Haines, which occurred at the Frank mines on Sept. 28, found that they came to their deaths accidentally, casually and by misfortune. The jury expressed an opinion that the ventilation in the mine was insufficient or imperfect, and recommended that it be increased or improved.

LOCAL

—The referendum vote will be taken in Ontario on Dec. 4th.

—A. W. Ponton, D. L. S., Indian department surveyor, left Saturday morning for Morley, where he will lay out an irrigation ditch for the Stony Indian reserve.

—The Calgary Herald reports a Swedish social in that city at which 150 members of that nationality were present. The social was held in the Swedish Lutheran church.

—The Gallagher-Hull Co. received six cars of Shropshire sheep Saturday night. They were brought up from Hull's sheep ranch, Calgary, and will be offered for sale at the yards of the pork packing establishment.

—Rocky Mountain Echo; Mr. Secord, of the firm of McDougall & Secord, Edmonton, arrived in town on Friday morning, and is at the Alberta. He brought down some half-breeds to locate scrip for local purchasers.

Albertan, Oct. 29.—Last Saturday night Mr. George F. B. Cole, a young man from Red Deer, with his parents, came to Calgary. The young man was suffering from appendicitis and was taken to the general hospital for an operation. He died yesterday afternoon. His remains were sent north this morning.

—Regina Standard; The local diphtheria scare is subsiding. It gave rise to a good deal of criticism of the authorities, but it should be borne in mind that matters of this kind are very difficult to deal with. The authorities have to think of some features that escape the eye of the ordinary critic.

—John Sommerville & Son., hardware merchants late of Portland, Oregon, who have purchased the stock of W. H. Parsons & Co., took over the business the first of the month. The doors, which had been closed the last three days of October for stock taking, were re-opened by the new firm Saturday morning. Mr. Parson's staff are retained in the employ of Sommerville & Son, except F. Tracy, who left some few days ago for Ponoka. Mr. Parsons will continue to reside in town for the present at least.

PERSONAL.

—G. Breckenridge went down the line on Saturday.

—F. Whiteley has taken a position with J. H. Morris & Co.

—Sergt. Sweetapple, N. W. M. P., went to Calgary Saturday.

—Dr. Jamieson went to Lacombe on professional business, Saturday.

—Mrs. C. W. Mathers returned Friday evening from an extended visit in California.

—W. L. Wood, manager of the Hudson's Bay post at Athabasca Landing, and wife, who have been visiting friends in town, left Saturday morning for the coast.

HOTEL ARRIVALS.

Friday.

Alberta—Rev. J. McDougall, Calgary; Rev. R. B. Steinhauer, Morley; Rev. C. E. Somerset, Red Deer; Mr. and Mrs. H. Wilson, Mrs. Langworthy, E. J. Collins, Geo. Durrand, G. H. McAvoy, W. L. Wilkin, Fort Saskatchewan; B. J. Saunders, Regina; J. W. W. Stewart, G. F. Williams, Vancouver; M. A. Dawson, Montreal.

Queen's—Wagner Bonner; Jos. Buxton, Calgary; C. A. Lowe, Clover Bar; M. M. Norrson, Jos. Ruttle, W. Johnston, Lawton, N. D.; Arthur Irwin, Midland, Ont.; Chas. F. Stewart, Fort Saskatchewan; Geo. Dudgeon, Toronto; P. S. Arnold, Beaumont; John McMillan, Stony Plain.

Grandview—Wm. S. Willie, Stony Plain; D. Reed, town; J. Brandon, Fort Saskatchewan; Chas. Brumfit, New Lunnon.

Jasper—G. J. Vetter, Beaver Hills; W. E. Wagner, Vegreville; Mrs. McMahon, Miss McMahon, Riviere Qui Barre;

Victoria—E. M. Pickrell, Toronto; F. St. Arnaud, Beaumont.

NEW ADVERTISEMENTS

TENDERS FOR INDIAN LANDS

SEALED TENDERS, addressed to the undersigned, marked on the envelope, "Tender for Stony Plain Lands," will be received by this Department until noon on Wednesday, the third day of December, 1902, for the following farm lands, being a portion of the Stony Plain Indian Reserve, situate near Edmonton.

Township 52, Range 25, W. 4 M., Sections 29, 30, 31 and 32.

Township 52, Range 26, W. 4 M., Sections 25, 26, 27, 28, 29, 32, 33, 34, 35 and 36.

Each tender shall contain an offer at a rate per acre for not more than one quarter section of land and shall be accompanied by a cash deposit or an accepted cheque of at least five per cent of the amount of the tender, which shall be forfeited to the department in case tenderer fails to complete the purchase of the land.

TERMS OF SALE:—One quarter cash, upon advice of acceptance of tender, the balance in four equal annual instalments with interest at the rate of five per cent.

Any information regarding the lands can be obtained upon application to the Indian Commissioner, Winnipeg, or to the undersigned.

The highest or any tender will not necessarily be accepted.

J. D. McLEAN,
Secretary.

Department of Indian Affairs,
Ottawa, 23rd, October, 1902.

FROM VERMILION.

Gilbert McKay returned from a week's stay at Vermilion, Peace River, last week. He brought samples of Red Fife wheat of the present year's crop and a sample of flour made in the new H. B. Co. mill just erected there. The wheat is a magnificent sample. The heads are long and well filled and the grain is plump and of good color. The sample was taken early in September before the crop was harvested and was therefore somewhat green, but apparently is none the worse. Wheat was a good crop and cut and stacked on Sept. 15th, when Mr. McKay left. Although the mill had started up it was not in full running order, on Sept. 15th, but was expected to be by the 20th. This is a 40 barrel roller process mill erected by the Hudson's Bay Company. There are besides two other water power stone mills, owned respectively by the Lawrence Bros. and the Roman Catholic mission, Lawrence Bros. have a steam saw mill and the H. B. Co. also have a saw mill.

About half the grain crop is wheat, and the greater part of the other half barley. Oats is not much cultivated as yet, and this year the yield is light, wheat and barley are both good crops.

The first frost occurred during the first week of September. The spring was wet and the summer dry, which accounted for the light yield of oats. Seeding began about April 15th, but plowing did not begin until about May 1st. In the previous fall plowing ceased about October 15th.

Owing to the erection of the H. B. Co. mill the settlers increased their areas of breaking this year by about 200 acres. The present crop acreages of the settlement are about as follows; Sheridan Lawrence, 150 acres; Fred Lawrence, 120; acres; J. Lawrence, 60 acres; J. Bourassa, 60 acres; R. Jones, 50 acres; I. Gagnon, 35 acres; and about 100 acres in small plots.

There is a large block of good farming country on the south side of the Peace, where the H. B. post and principal settlement is, And it is reported that there is also a great extent of fine country on the north side. Settlement along the river bank on both sides, but is very scattered. Within the past few years settlers have broken land back from the river and this year their returns from that land was very satisfactory. The nature of the country is a fertile but somewhat scrubby prairie with belts of heavy timber. Pasture is good and there is abundance of hay. Cattle do well but the season of feeding is a little longer than at Edmonton. The winter is cold but generally calm and the snow gets deeper down the upper Peace or on the Saskatchewan.

Crops were reported to be good at Peace River Crossing and at Lesser Slave lake the vegetables were very fine.

Vermilion is 350 miles further north than Edmonton, being in latitude 58.30, and is a little further west. It is some 30 miles, a little east of north of Peace River Crossing.

LACOMBE.

Advertiser, Oct. 27.

Oats in Pleasant Valley run about 70 to 75 bushels to the acre.

A large number of new buildings are being erected in town.

A telephone system will, in all probability be installed in town at an early date.

Mr. W. F. Puffer will make a large shipment of fat steers about the last of this week.

J. Reid leaves to-day for Edmonton, where he has bought out the grocery business of Mr. Cristall.

BLACK BASS.

The Canadian fishery department is not the one of most interest to this furthest inland portion of the Dominion. But occasionally it reaches out this way. A recent instance was the placing of black bass in some of the lakes in the national park, of which Banff is the capital; and also in Buffalo lake which lies some thirty-five miles east of Lacombe. Although the lakes of the Northwest in and near the mountains contain food fishes in some variety and in large numbers there are few varieties of game fish—those which give sport to the professional angler. Of course the fact that such fish do not exist in these lakes argues very fairly that they are not suitable to them. On the other hand, as everything must have had a beginning it may be as fairly argued that the reason they are not there is because they never had the opportunity. The hatching of fish has now been reduced almost to a certainty, and the Dominion government has several hatcheries in operation. After experts had looked over the ground, or rather the water, it was decided that the black bass was the game fish most likely to succeed in the waters in question. Consequently a shipment of black bass fry was made up from one of the government's hatcheries and shipped in a specially appointed car. As the conditions in even the best arranged car are very far from those which prevail in their native waters the shipment, which was intended to have been made earlier in the season, was delayed until late in October, owing to the continuance of warm weather.

H. S. Young, fishery overseer at Edmonton, was notified early in October to proceed to Calgary to receive, and see to the transfer into Buffalo lake, of the fry intended for that lake. On arrival at Calgary, however, he found that the shipment had been delayed as stated, and returned north to Wetaskiwin by rail. From there he drove to Battle, Bittern and Dried Meat lakes, to look into the conditions existing there, and returned to Wetaskiwin. From Wetaskiwin he went again to Calgary and east to Gleichen where he met the car containing the black bass fry. He took charge of the portion of the shipment intended for Buffalo lake, to Calgary and north to Lacombe by rail and then by team to the lake. Twenty fish were placed in Tanglefoot lake and 265 in Buffalo lake, Only eight were lost out of the whole number shipped,. Most of the fry were from four to six months old, but two of them were full grown.

After delivery, of the fish at Buffalo lake he returned to Lacombe and visited Gull lake, a beautiful sheet of water which lies a few miles west of the town, but which contains no choice fish. From Wetaskiwin he visited Pigeon lake and reached Edmonton by team on Tuesday afternoon..

Although Mr. Young had travelled over a great part of the country now covered only a couple of years ago, he found the changes produced by settlement so great that could scarcely recognize it. A very large amount of fall plowing was done in all the settlements, and a very good feeling prevailed. He passed through the hailed district in the vicinity of Bittern lake and even there people were busy plowing and doing no growling.

THE WOODMEN.

A successful meeting of Edmonton camp of Woodmen of the World was held last Tuesday at Hourston's hall. The attendance was good, including a visiting brother from Portage la Prairie, who, like a good many other rambling choppers, duly succumbed to the lively influences of this Camp and joined our ranks. Notice is herewith given to all whom it may concern that the charter of the Edmonton Camp has been closed by resolution at the last meeting. Next meeting will be held at Hourston's hall, at 8 p. m., Tuesday, Nov. 11, when among other important matters the election of officers will take place, so that nothing short of a full house will be expected of the brotherhood. Log rollers and within reach of this notice crowd into your camp at time and place as above stated.—Com.

Grain for Australia.

San Francisco, Oct. 28.—The upward movement in the price of wheat is causing considerable excitement in local commercial circles, and the market is showing more activity than for many months. The fact has developed that early estimates of crop of this state were far from the actual facts. The reports at first indicated a yield of about 900,000 tons. Now that the harvest is over, the crop is believed to be only 600,000, or a trifle over.

The extent of wheat shortage is shown by the estimate that there would be between 25,000,000 and 30,000,000 grain bags carried over this year, against 10,000,000 to 15,000,000 in ordinary seasons.

The great drought in Australia is turning a large quantity of wheat in that direction which would otherwise be shipped to Europe from this port. Although the steamer Zolina has brought news that the drought is breaking and better conditions prevailed in the South; ten continent, the British ships, Clavenden, Trafalgar, Glenclova, Blythswood and Aimera have all been chartered to load here for Australia, and other cargoes may be engaged before the end of the week.

The High Tariff Campaign.

Ottawa, Oct. 28.—"We the undersigned hereby severally prescribe for and covenant and agree with the Canadian Manufacturers' association to pay to the said association the amount set opposite our respective names in three equal consecutive annual payments, the first payment to be made within 60 days after the sending of notice by the said association.

"This fund has been subscribed, towards a fund of $50,000 to be used by the said association in an educational campaign to impress upon Canadians, the advantages of developing Canadian industries and maintaining, as far as practicable, the home market for Canadian manufacturers."

The foregoing is the wordingg of a guarantee, which has been sent to Canadian manufacturers, and to which many signatures have been appended.

Another circular letter sent out is signed by Mr. McNaught, as chairman of the staff committee, and it asks manufacturers throughout Canada to make their wishes known in regard to the tariff.

It is understood that the proposal to raise the duties, includes an increased duty on pig iron, bar iron, steel billets, steel plates, and, in fact, iron and steel generally.

CASH GUARANTEE TO CURE OR PREVENT HOG CHOLERA

PRICE REFUNDED IF IT EVER FAILS.

INTERNATIONAL STOCK FOOD

AS 3 FEEDS FOR ONE CENT

CURES OR PREVENTS HOG CHOLERA.

PRICE REFUNDED IF IT EVER FAILS AND YOU TO BE THE JUDGE.

It causes perfect digestion and assimilation, stimulates and permanently strengthens the entire system, purifies the blood and gives strong vitality. The latest scientific discovery by the celebrated Russian naturalist, Metchnikoff, is that rich, healthy blood manufactures a substance called "Phagocytes" that feeds on and destroys microbes of such diseases as Hog Cholera and that it is only through the blood that disease germs can be destroyed after being taken into the system. Your chance of avoiding or curing Hog Cholera will depend on the constitutional strength of your hogs.

Guaranteed to Save Grain and Make Pigs Weigh 250 to 300 Pounds at 6 Months.

We will pay you $100 in cash if we ever refuse to live up to the "Spot Cash Guarantee" which is printed on every label. If any one sells you a Hog Cholera Cure or Preventer and does not give you a reliable guarantee that your money will be refunded in any case of failure, you are liable to be swindled.

IF YOU cannot buy "INTERNATIONAL STOCK FOOD" in your town it will pay you to write us at once stating how many head of hogs and other stock you raise and we will mail you free our book "PROFIT IN HOGS" and five other "Stock Books." We will also write you about prices, etc., etc.

EDMONTON BULLETIN, NOV. 3rd, 1902.

VOL. XXV.

With this issue the Bulletin enters upon its twenty-third year of publication. It was first issued in October, 1880. At that time the railway had just reached Winnipeg, and the white population of the Territories was counted by hundreds. Mails arrived from Winnipeg once in three weeks and the trip occupied three weeks. Freight from Winnipeg cost ten cents a pound and the time of transit, in summer only, was from two to three months. The Bulletin was founded on the existence of a telegraph line, the prospects of early railway connection and the energy and confidence of the people. It was intended as a news exchange. To place the happenings of this remote and isolated locality fully and correctly before the outside world, and to keep the people here up to date in the main features of the world's news. How thoroughly that was done then the fact that the Bulletin received a support which enabled it to exist, and to continues in existence under such disadvantageous circumstances, is evidence.

Since then the years have been long and changes many. Disappointments have been numerous and staggering. But the Bulletin stood by the country and the country stood by the Bulletin; and to-day the people have the pleasure of witnessing and the Bulletin of recording the present magnificent endorsation of their judgment and persistence in the fact that the eyes and footsteps of the world are turned to the North Alberta—the upper Saskatchewan—region of which Edmonton is and has been far over a hundred years the commercial centre. The fight has been long, wearisome and bitter, but it has been won. It is not for the Bulletin to say what part it has played in the achievement of success except that it has done its fair share as occasion demanded or opportunity permitted.

While we look back with satisfaction over the past and forward with confidence into the future, we would all do well to remember that success is achieved by exertion rather than by waiting. We had to wait long for success, but if we had only waited success would have passed us by. In all human probability the progress which the Territories has made in the past twenty years will be exceeded during the next five. A little exertion and long waiting was necessary in the past, years of slow progress. But in the years of swift progress now being entered upon exertion rather than waiting is the greater need. It is often seen that the man or the place which has stood the hardships and discouragements of pioneering are side tracked or trampled under foot by the inrush which their efforts and sacrifices have brought. This need not be. The first on the ground has the advantage, but he must improve his advantage or he cannot hold it. The determined man who merely held his ground when the tide was ebbing finds himself in the lead when the tide flows in again. But if he again merely holds his ground he is soon passed by new arrivals who coming in on the flow took full advantage of it. It is one thing to be the business centre of a scattered settlement of a few thousand souls, it is quite another matter to hold the centre in case of a rush of people during which dozens of towns will spring up and the population of the Territories be increased by ten and hundreds of thousands. Enterprise must keep pace with opportunity, or it falls behind in the race.

The Bulletin has always acted on this principle. When it was started twenty-two years ago it was considered to be considerably in advance of the times. This has been its aim ever since. Without other resources than the approval and support of the public it has necessarily suffered from the long series of disappointments which the district has passed through during its life time. For years it as well as the district was at a standstill. But the record proves that it has kept pace with the growth of the past ten years, and the people of Edmonton may depend that whatever the next ten years has in store for them in the way of material progress the Bulletin will still keep well to the front as a purveyor of news and an exponent of the public right.

LISGAR ELECTION TRIAL.

The result of the Lisgar election trial is that A. D. Stewart retains the seat. It is very hard for the ordinary mind to reconcile the decison in this case with that rendered in the case of the petition against the former member, R.L. Richardson. Richardson ran in the general election of 1900. He is not a man of large means, he had no organized backing by men or parties who would provide him with funds. He was elected at the polls, but was unseated at the election trial on the ground of corrupt practices by agents. He was again a candidate at the by-election, and was opposed by candidates of the two party organizations and by all the force that both organizations could bring to bear. As a result Mr. Stewart was elected. His election was protested, with the result stated. Under the terms of the very stringent law against corrupt practices at elections it is not remarkable that even Richardson without money and without party organization was unseated. It is practically impossible to run an election without the law, if strictly construed, being contravened. But what is remarkable is that after an election contest such as that of last fall where Mr. Stewart's supporters had money enough to bring helpers of all classes and characters from all ends of the country, where many thousands of dollars must necessarily have been spent, the court did not find that the law had been contravened.. Of course large sums of money may have been spent and still no infraction of the law committed that would properly warrant Mr. Stewart being unseated. But it is impossible to conclude that the same standard could be applied to the small expenditures on behalf of Richardson and the large expenditures on behalf of Stewart and Richardson be unseated while Stewart retains his seat.

The bald facts of the case appear to be that the election law which was made most stringent in order to prevent the will of the people being defeated by an expenditure of money, by that very stringency has become a means whereby the will of the people can be defeated with almost absolute certainty. As already said any man can be unseated after any contest on a strict interpretation of the law. And as the recent trial shows a member may be retained in his seat after vast sums have been spent to secure his election, if the judge will merely construe the law loosely enough. The stringency of the present election law is a weapon against, instead of a defence of purity of elections. This is the plain fact as it stands, and is well worthy of the most careful attention of the thinking and voting public.

It is impossible at this distance—even were it judicious or safe,—to comment on the fairness to both parties with which the trial was conducted. There is one instance, however, to which attention may fairly be drawn. A certain important witness was summoned on behalf of the petitioners. The witness could not be produced at the proper time. The petitioners asked that the trial be delayed so as to enable legal measures to be taken to compel the witness to appear. The delay was refused, and the witness was not required to appear. In this case the court allowed its own order to be defied to the apparent prejudice of the petitioners. If witnesses are not to be compelled to attend when required there might as well be an end of the of the attempt to administer justice according to the evidence. The fact that this particular witness was said to be an undesirable person in some ways, does not seem to be to the point. And the fact that the presiding judges took upon themselves to decide that the evidence—which they had not heard—was not sufficiently important to warrant a delay of the case until the necessary procedure could be taken, fixes responsibility upon them rather than relieves them from it.

The results of the two Lisgar election trials have placed the law and those who administer the law, at least on trial, at the bar of public opinion. We in Canada are blessed with a good judicial system and with good men to administer it; but we have been so blessed for so long that we are apt to forget that judges are merely human. The Lisgar election trials will go far to remove the mistake.

A Quarter of the Time and Money

Usually spent in the selection of Jewelry can be saved if the selection is made here. The assortment of Watches, Diamonds, and Fancy Stone Rings, Chains, Gold and Silver Novelties is remarkable in very many ways, but the most interesting feature is the very modest prices at which all our goods are marked. Having a large stock of loose Diamonds, Opals, and other stones I am enabled to manufacture jewelry to special designs at short notice.

Watch, Clock and Jewelry Repairing a special feature.

E. Raymer. Watch Maker, Jeweler and Optician.

Only Nova Scotia Wool
IN
Stanfield's Unshrinkable Underwear

Every part of Nova Scotia is near salt water and the gentle sea breezes impart to the wool a peculiar texture and softness. This wool is long staple and of great strength and elasticity. "Stanfield's" is the only Underwear in the world made from Nova Scotia combed wool. Sold by all reliable dealers.

The Alberta Land Company

Has 20,000 acres of as fine land as can be selected in Beaver Lake, Vermillion and Birch Lake country.

These lands are adapted to both raising grain and stock. There are three lines of proposed Railroads running through this part of the country. These lands can never be bought cheaper than now. We are selling every day and they are not going to last long. Improve the opportunity and place your money where you are sure of securing a good profit by the investment.

Many invest in Mining, some in Oil, some in Bonds; only a few reach the goal; the rest find their hard earned money gone with only a piece of nice paper to tell the story. Why not buy a piece of land one-half mile [] to look at and see it increase from year to year in value until it makes you and yours a nice little fortune? It will surely come. It is only a question of time.

We solicit your trade. Call or write and get maps and information of these cheap lands.

F. FRASER TIMS,
Commission Broker,
Edmonton.

FROM REGINA.

J. Shedden, who returned last week from several months stay in Regina in the employ of the Frost & Wood Co., speaks highly of the crop in that district this season. There is no question as to the large yield and high quality of the grain. There is, however, every prospect of a blockade with all its consequences. The weather has been fine. Threshing is over in some parts and will all be over by the middle of November. The freight service on the C. P. R. seems to be demoralized by the grain trade. Freight takes an unreasonable length of time to come from Winnipeg. From what Mr. Shedden says the further west country is getting a better freight service than Regina. For a time the town was out of coal oil and almost out of coal. Regina has high hopes of the extension of the Moose Mountain branch of the C. P. R. to that point in another year or two. This would put Regina on a cross line as it is now the southern terminus of the Prince Albert branch. The various implements agencies are placing their central warehouses for the Territories at Regina. There has been a widespread epidemic of diphtheria in Regina. Most of the cases have been mild. Several deaths have occurred, but they are few compared with the numbers suffering from the disease. Miss McCauley, of Edmonton, and Miss Boyle, of Strathcona, normal students had been attacked by the disease, but had recovered before Mr. Shedden left. The public school had been closed but had been re-opened.

C. N. R. SURVEY PARTY.

F. Whiteley, who has been with the C. N. R. survey party working east, since they left Mill Creek, returned last week to town. He states that the party were camped when he left on Saturday, Oct. 25th, about four miles north of Vegreville, on the Vermilion Creek, in section 18, township 52, range 15.

The party all told consisted of 14 men as follows;

Engineer, McFarlane, chief.
Engineer Ross, transit.
Engineers Harris and Vassard, level.
J. O'Donnell, L. Newby, axe,
E. Sutton, J. Maloney, brush hooks.
H. Graham, picket.
F. Graham, Geo. McKay, chain.
R. Dempsey, Mr. Barry, teams.
F. Whiteley, cook.

The line branches off the new spur at the junction of the two Mill Creeks, a short distance south of the Brackman-Ker hog ranch. The spur takes the west branch till it obtains the level east of Strathcona, and the new survey follows the east branch to the level on the opposite side. It then swings north and passes close by Agricola school house. Skirting the north edge of the Beaver Hills it passes Fort Saskatchewan about four miles south and across Beaver Creek, seven miles southeast of Star. The line then swings south and was heading to pass between Sickman's and Birch lakes when Mr. Whiteley left.

The weather and state of the ground has been splendid for survey work. About four miles is the average day's work.

OLDS.

Oracle, Oct. 24.

Quite a number of families from the Central States have settled in the neighborhood of Eagle Hill, west of Olds.

Mr. Isaac Wilkinson, who left here a few months ago for a visit to England, returned this week.

Rev. Kruger has become a citizen of this town and has taken up the work of Rev. Shaw, with the addition of a German settlement some twenty miles east of town. We have again lost our old friend Shaw who is now stationed at Carstairs.

The weather continues most pleasant. We have had no snow to speak of and the ground has not commenced to freeze. The farmers are putting in overtime at fall plowing and the carpenters and builders are "sawing wood."

The Hammer school House is completed and school will be opened at the beginning of the new year. Church of England service will be held there next Sunday and fortnightly thereafter. The Methodists will hold service on the alternate Sundays, commencing Nov. 2nd.

Mr. A. W. Samis, of Sarnia, Ontario, arrived in town on Wednesday of this week. He will spend a few days here visiting with his brothers, H. A. and A. J. Samis, when he will go to the Edmonton and Sturgeon districts to visit regatives there. He has nearly decided to establish a ranch somewhere in the Territories.

Didsbury items;

Overseer Hiebert is grading some of the streets and improving the town generally.

The contract for the new school is let to Mr. Hembling who will rush it up in a hurry.

Didsbury is growing so rapidly that it has gotten out of its bounds; this week a few more blocks are being surveyed and added to the townsite.

East Didsbury is beginning to bestir itself. Messrs. Keeny and Christie have purchased a fine block of land in the Lackner survey and will beautify it and build next spring; a gentleman from Edmonton has invested; Dr. Lackner will erect a residence in the near future; and altogether about six residences will adorn Sunny Heights before many moons.

STRATHCONA.

Plaindealer, Oct. 31.

John E. Ingle starts for Forestburg, South Dakota, to-morrow on a bicycle. The distance is upwards of 1,500 miles and he hopes to make it in less than three weeks.

Lumber is on the ground for the new skating and hockey rink which Mr. Sache is going to erect just west of the Grandin St. school campus. Mr. Hawthorne, lately of Ashcroft, B. C., will manage the rink.

Supt. Pace, of the C. N. R., is having the west grade of Mill Creek on the wye road cut down to put it in good condition for traffic. The steep incline is at a point where the railway cut across the old road and a new grade was cut by the contractors to make good the damage done.

From time to time the Strathcona board of trade has urged upon the C. P. R. the need or another telegraph wire along the line of the C. & E. Whether our recommendation had had anything to do with the matter or not we cannot say, but we are gratified to know that a gang of men is now engaged in stringing a copper wire on the C. & E., beginning at Calgary. The telegraphic service will be greatly improved when this work is completed.

On Monday evening last a meeting for organization was held in the town hall by those interested in the opening of a public reading and recreation room in Strathcona. Rev. G. H. Webb called the meeting to order and Mr. F. C. Jamieson acted as secretary. It was decided to organize under the name "Strathcona Reading Room Association," Principal MacKenzie, of the schools, was elected president. The following gentlemen were elected a board of management; F. C. Jamieson, J. M. Kains, Dr. Crang, J. F. Bryant, F. W. Kerr and J. H. McDonald, and were authorized to appoint a secretary-treasurer who, with the president, will be a member of the executive. The committee on organization announced that forty-five members at $2 per member had been secured in a partial canvass of the town. Mr. Webb anticipated that twice that number can be secured. It was stated that the town council had granted $50 towards furnishing of the rooms. Mr. Rutherford had offered the association suitable rooms in his block at the corner of Whyte Ave., and Main St. above McWithay's barber shop. This offer was accepted and the board of management was authorized to proceed at once with furnishing and equipping the rooms with magazines, papers and parlor games.

Bean—DesAulniers.—At Fernie, B. C., on Oct. 16th, by Rev. Father Miller, Miss Angeline DesAulniers, of New Whatcomb, Wash., formerly of Strathcona, to Mr. Percival E. Bean, of Fernie, formerly of Edmonton.

OLDS.

Oracle, Oct. 31.

Messrs. H. A. and A. W. Samis left on Tuesday's train for a few days visit with relatives at Edmonton.

The second annual anniversary services of the Olds Methodist church will be held on Sunday and Monday, Nov. 9th and 10th.

During their sitting in Olds the license commissioners granted a license for a hotel at Morningside, Alberta.

A branch of the Masonic order was organized last week. They will hold their meeting once a month in Logan's Hall.

The manager of the Canadian Bank of Commerce is making enquiries as to the volume of business done with a view to deciding whether or not to establishing a branch at this point.

Several prairie fires broke out in the vicinity of Olds on Tuesday afternoon. Two of them, one a mile south and the other several miles north of town, started from the railway and are supposed to have been lit by the engines. In the absence of Constable Peters, ex-policeman Dean and Rubbra warned out about 40 men to fight the fire. A strong west wind drove the fire rapidly for about a mile before it came to a fire break that it could not jump. Nothing of value was burned except two small haystacks belonging to Mr. J. W. Silverthorne. Another fire got started later in the day in the neighborhood of Mr. Ransay's place 5 miles N. E. of town, which burned a stack of hay for the Beaton Bros. before it could be brought under control.

Honor roll for regularity and punctuality; Maggie McKay, Leona Sutherland, Victor Mann, Clyde Sutherland, Ray Beals, Kate Wade, Joseph Mohr, Archie Jones, Harry Goodridge, Clifford Young.

Teacher, W. Ramsay.

C M R. WIN TUG OF WAR.

The Bulletin is in receipt of the following letter;

Oct. 10, 1902.

To the Editor of the Bulletin.

Dear Sir.—If you can spare space in your paper I should be glad if you would publish an account of how the C .M. R. on board M. S. Briton won the tug of war in some sports we had coming over from South Africa. There were only about 50 on board, and thanks to A. P. Thornton, of Edmonton, who coached the team, we managed to pick a team that pulled everything on board out of a lot of 700 Royal Warwick Regiment, 300 Royal Engineers, and 200, Royal Irish Fusileers. There were three men out of the 2nd C. M. R. and five out of the 5th including myself. Hoping again that you will be able to find space for this little feat.

I am yours truly,

HERBERT T. MITCHELL.

SIDEWALK TO STATION.

Editor Bulletin.

Sir.—Now that our station and train are ever present realities, and since we are likely to soon have a regular freight and passenger service, it seems to me that suitable access to the station ought to be provided for pedestrians. If the citizens of Edmonton resemble the good people of Strathcona, most every man, woman, child and dog in the town, will wish to go to the station when passengers arrive, in order to rubber at the new arrivals.. It therefore behooves the town council to build a sidewalk either down Ross' hill or Second street, and then, both in wet and dry weather, people may travel conveniently from the town to the depot and back again.

CIVIS.

WHITE WHALE LAKE.

At last a post office is in sight for us; but some of us are not in love with the name suggested. Nor does the idea of a fortnightly service satisfy anyone.

It was a most pleasant surprise to learn that D. R. Fraser & Co. had decided to move their saw mill and planer up to their timber limits near by us. It will be a great advantage to our settlement and will be appreciated.

A recent visit from Dr. Cardieux and wife of Qu'Appelle, has resulted in their being so enraptured by the beauty of our country that the doctor has purchased a half section near the lake and has resolved in the near future to make this his home. This will be a boon to our settlers.

The Stoneys are nearly all off on the fall hunt. Most of them will return before New Years. Some have permits to go to Morley.

Strawberries in themselves at the regular season are appreciated. But strawberries in full bloom and ripe in October are a rarity. Yet they were found on our reserve, on the premises of the farm instructor, and of the missionary and were carried off by a number of visitors.

A few landseekers of late seem too much inclined to look at things through the bottom of a beer mug. That class are respectively invited to go elsewhere.

LEDUC.

The Ladies' Aid of the Methodist church held a Thanksgiving supper in the Foresters' hall on Wednesday evening last. Tables were arranged all along one side of the hall and spread with an abundance and quality that certainly did credit to the efforts of the refreshment committee. The supper were followed by a programme consisting of choruses by the choir, members of which gave songs, duets and quartetts, addresses by Revs. Mr. Kennedy, of Millet, Rev. Mr. McDonald, resident Baptsit minister, and Rev. J. Scott, who acted as chairman. The proceeds, owing to the large attendance were encouraging to the ladies' efforts.

Fred Holland, farmer, 7 miles southeast, was yesterday convicted on a charge of insanity by R. T. Telford, J. P., and went south this morning in charge of a constable to Calgary, from which place he will proceed to the asylum.

The Leland hotel held their opening ball of the season in the new addition to their hotel last Thursday night. The dance was held on the ground floor, which not yet having been partitioned into various rooms, made a spacious dancing hall. Good attendance, good music and good supper combined to make a pleasant evening for all participating.

The village is badly in need of a good, Prisoners are brought in here from a radius of 15 to 20 miles to stand trial and on some occasions the attending constable has had to sleep with his prisoner at his room in the hotel while awaiting trial or transportation north or south. On two or three recent cases this has been very unpleasant for the constable. Other villages matters are being well looked after why not a goal? It would save the police department considerable time and expense by stationing a constable at this point.

Oct. 28, 1902.

CALGARY YOUNG LIBERALS.

The meeting of the Young Liberal club held last night in the co-operative hall was well attended and a very interesting meeting was held. The meeting endorsed the action of Premier Laurier in asking for the resignation of Mr. Tarte. R. A. Wallace, M. L. A., of High river, addressed the meeting. The following is the result of the election of officers;

President, W. M. Davidson.
Vice-president, Stanley Jones.
Secretary, W. C. Armstrong.
Treasurer, Dr. Anderson.
Executive committee, Dr. Stewart, F. F. Higgs, J . G. Douglas, Harold Riley, George Webster, F. X. Stahle, T. J. S. Skinner, J. E. Riley, William Lafferty.

Canada's Trade.

Ottawa, Oct. 27.—According to statistics just issued of $317,352,854 worth of bread stuffs imported by Great Britain during the calendar year 1901, $154,027,541 worth was from the United States and $20,348,623 from Canada.

In 1900 the value of bread stuffs imported from Canada was $23,821,656, and from the United States $158,624,800.

The value of wheat imported into Great Britain last year from Canada was $10,784,772, from the United States $65,530,965.

Statistics of the trade between Canada and Japan just issued show that that country imported from the Dominion during the calendar year 1900 goods to the value of $158,000. In 1901 the imports amounted to $91,000. The chief falling off was in salted fish, of which Japan took from Canada over $90,000 in the former year, against $40,000 last year. On the other hand Canada's imports from Japan show a steady increase as follows; In 1897 they amounted to $1,027,000; in 1899 to $1,170,000, in 1900 to $1,450,000, and in 1901 to $1,638,000, about half the value of these imports consisted of tea, the next largest item being cotton manufactures, which last year amounted to $495,000.

The Doukhobors.

Yorkton, Oct. 29.—Thirteen hundred Doukhobors marched into town at 1;30 yesterday afternoon from their villages to the northwest. Their objective point was the immigration hall, where they were met by C. W. Speers, general colonization agent, and J. S. Creear, local immigration officer. A parley followed, and a shelter to the women, the children and the sick was offered, but refused. The Doukhobors were afterwards persuaded that it was impossible for them to go wandering about and finally all except the men were accommodated in the immigration hall.

About 4 o'clock the men marched out of town going east. It is stated that another party of 400 are on the way in and are now six miles out, while 600 more are leaving their villages. One child died on the way this morning. They look much the worse for their sparse diet and long tramp. The leaders have not any practical or definite ideas as to future action. They desire, they say, to convert people and find "the new life."

Increase of Food Exports.

In a recent interview in Winnipeg Prof. Robertson, of the Dominion department of agriculture, prophesied that flour, cured meats and butter would yet be shipped in large quantities from Canada, and especially from British Columbia, to the Orient.

In connection with the dairying division of the agricultural department, he said the export of Canadian cheese had grown from $10,000,000 ten years ago, to $20,000,000 last year, and the export of butter from less than $1,000,000 in 1895 to over $6,000,000 this year.

NOTICE TO CREDITORS

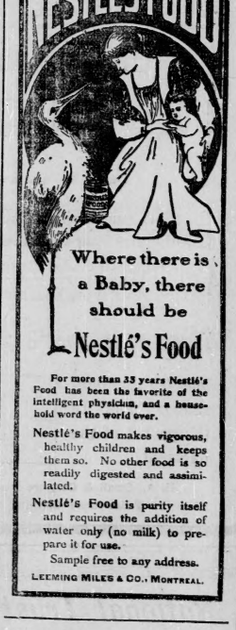

Of Noah Ziegler, late of Spruce Grove, Alberta, Deceased.

Notice is hereby given pursuant to the order of the Honorable Mr. Justice Scott, dated at Edmonton the 30th day of September, A. D., 1902, that the creditors and others having claims against the estate of the above named Noah Ziegler, deceased, are to send in their names and addresses and full particulars of their claims together with a statement of the securities, if any, held by them, verifying same by statutory declaration, and the names and addresses of their Advocates, if any, to the "National Trust Company, Limited," Edmonton, Administrator of the estate of the said deceased, on or before the first day of December A. D. 1902.

And take notice that after the expiration of the time aforesaid the said administrator will be at liberty to distribute the assets of the said deceased or any part thereof amongst the parties entitled thereto, having regard only to the claims of which the said administrator then has notice.

Dated at Edmonton, this 30th day of September, A. D. 1902.

VITAL STATISTICS

The following is the report of the number of births, marriages and deaths during October, in the Edmonton electoral district, as registered at the office of St. Geo. Jellett, registrar;

Births. 14.
Marriages. 5.
Deaths. 7.

A COMING TOWN.

Wetaskiwin Times.

Morningside is located on a beautiful bank between Ponoka and Lacombe. It is only about three months old, and has several houses completed and another under construction. The principal men of the town are, Ed. Matthias, who keeps the best and cheapest lumber yard between Wetaskiwin and Calgary, and thousands of feet have been hauled therefrom to both Lacombe and Ponoka. Martin Olson, general merchant, keeps a large stock and has an immense trade. Wm. Birney is the busiest man in town running from one house to another with his paint brush—s making everything shine outside and inside. Ole Bredison, notary public and insurance agent, attends to the legal business of the place. S. Mickelson's licensed hotel is about ready and will be occupied by an experienced hotelman. About every week business men from Ponoka and Lacombe are here looking for better locations, and well they may as both parties show signs of swarming.

INNISFAIL.

Free Lance, Oct. 30.

Allan Bourchier was down from Edmonton for a couple of days this week.

A golden eagle killed near Red Deer last week measured 7 feet 4 inches, from tip to tip.

Business men at Didsbury have organized a board of trade. Innisfail used to have one.

Revs. Buchanan, of Edmonton, and Farrell, of Horn Hill, have been canvassing in this neighborhood with a view to establishing a Methodist church here.

On Tuesday afternoon Ragland Booker of Penhold, was out shooting in company with his sister-in-law. On returning home the gun was discharged while Mr. Booker was taking it from the buggy the charge striking his left arm just above the hand inflicting a very painful and serious wound. One pellet of shot struck Mrs. Booker in the breast, but fortunately did not injure her. Mr. Booker drove into Innisfail and is now in charge of Dr. Crawford, who reports him as progressing favorably.

A serious prairie fire occurred a few miles south of town on Tuesday. The fire was evidently started by sparks from the engine of the down train on the C. & E., and swept across a large extent of hay lands on which was stacked an immense quantity of hay. Messrs. Bryan, Parcher, Wilcox, Anderson and Evans are the principal losers. It is estimated that no less than 600 tons of stacked hay were destroyed to say nothing of damage to pasture. Had this fire been started by an individual, even accidentally, no doubt he would be severely punished for his carelessness, but as it was a C. P. R. engine, probably the company will escape scot free. "What doth it profit a man"—if he puts up a large quantity of hay and a C. P. R. engine comes along and sets fire to the prairie?

Penhold item; We learn that a large party of new settlers from North Dakota is now preparing to come into the district. The party will consist of some 26 families and is expected to arrive about the 10th of next month, bringing with them about 40 cars of stock and effects. We understand the majority have secured locations near Mayton

PONOKA.

Herald, Oct. 31.

John Wilcox has purchased 5 acres of land in Wetaskiwin for which he paid $140 per acre.

The Hotel West, Morningside, will be open to-morrow under the management of Chas. Cowden.

Talk about corn-fed beef! A. L. Ball on last Saturday sold a four-year-old heifer to James Twoey right from the range, that tipped the beam at 1880 pounds. Not a bad beast to be fatted on Alberta grass.

Captain D. E. Binkley left Tuesday morning for an extended trip through the States. He goes to Omaha, St. Louis and other places then to his old boyhood home at Worcester, Ohio, where his father still resides. He will return in a few weeks bringing his aged parents with him, both of whom are upwards of eighty years old.

George White brought in a drove of three year old steers Saturday, forty-two in number, which were convincing evidence of what may be done in the stock raising industry of this part of Alberta. The bunch were placed by those competent to judge at 1250 or 1300 pounds each. They were shipped by some eastern buyer.

A case which is creating considerable interest and which will serve as a test case is being tried at Wetaskiwin this week. A party adhering to the Seventh Day Adventist faith has been charged with Sabbath desecration by laboring on Sunday in violation of the Sabbath observance ordinance. There has been a considerable amount of discussion as to whether the Adventists should be permitted to engage actively in labor on Sunday. According to the law requiring the observance of Sunday they are in open violation of the laws of the land.

Fresh Crisp and Dainty

We have just received from Toronto another large shipment of the celebrated Christie biscuits. The shipment contains 34 distinct varieties, carefully selected from among the most attractive lines made by the best makers in Canada. If we can't please you, you don't want any biscuits.

It is not practicable to quote prices here for such an extensive line, but they will be sold at the same figures usually asked for similar goods in inferior makes, all the way from 15 to 60c a pound.

Tempting AND Delicious

How is it that our candies are always nicer than can be got anywhere else in town at the same prices? This is a question we are often, asked, Some day we will answer the question.

We have to-day received a large shipment of the choicest goods that can be produced in the candy line. The shipment contains no less than 62 varieties and there are others to follow. If we cannot suit your tastes exactly, you don't like candies.

The Hudson's Bay Stores.

CORSET EXCELLENCE

If you are particular about the Corset you wear; if you insist on the greatest comfort combined with perfect form features in a Corset, then you will naturally think of this store and our collection of "Corset Excellence," of which we can now only give a hint. There is the touch of art and elegance about the Corsets we sell that is only found in the best productions of the foremost corseters of the world. Before filling your corset needs, come and investigate the advantages this stock offers. Every new idea, including the latest "Princess Hip," is here.

The "D. & A." Corset, in 20 different styles.
"French Girdle" being of the latest.
The "E. & T." Corset, French corset, in 3 styles.
The "Crompton Corset," in 10 styles.
The above corests are all erect forms.
Four different styles in Children's Waists.

30 SETS Toilet Ware

To be cleared at a price which has already made ten satisfied customers. That means twenty more to follow. See?

These are Ten Piece Sets, in Blue, Brown, and Maroon shades.

COME AND ENJOY A LOOK AT THE NEW FURS.

We think our stock of rich Furs worthy of—yes, special commendation—let your view power be style or intrinsic worth. On both these points we're prepared to argue that we excel to a very noticeable extent.

We are not dealers of Furs in a tentative way, but from an experienced standpoint which accounts for the superior character of the Furs you can purchase at this store.

CONJURING CREEK.

Weather still continues fine and such a fall as we have had would be very hard to beat. Grain was cut, and stacked early leaving lots of time for plowing, so that very little stubble will be left for spring. Crops on the creek this year were fairly good, and are a splendid sample.

Conjuring Creek settlement has been on the boom again this year, and vacant land now is at a premium. Mostly railway land was bought this year, with the exception of a few homesteads which new settlers cancelled. A new school has been started just west of here at Cache Creek, where there were no settlers three years ago. Now its a thriving settlement.

Conjuring Creek has gone ahead most remarkably this last four years. It was very thinly settled four years ago with one school. Now it has been divided into two settlements, Calmar and Conjuring Creek, with a post office for each settlement, with an extra school for Calmar, and one for Conjuring Creek, being three schools for the two settlements, namely Willow Creek school, Conjuring Creek school, and Humble school, also the new Cache Creek school in the west settlement. Our postmaster also keeps a store in connection with the post office. Church is held every Sunday by the Baptist and Methodist denominations. The two settlements have about 1,700 inhabitants.

During the last two or three years we have had several money appropriations for the roads and bridges so, that a good road to our nearest town, Leduc, 15 miles will soon be realized, and beginning the first week of November we have two mails a week instead of one, so that there is certainly no kick coming from the Conjuring Creek and Calmar settlements towards the government. Two years ago last April we had sufficient settlers, so the government gave us a post office, but as the settlement grew so fast the post office department was asked this summer if they would grant us two mails a week, with good results.

Miss Kent, teacher at the Humble school, is attending the teachers' convention this week.

Miss Elliott, of Leduc, has been visiting at the creek.

Mr. Dalquist, who sold out to Mr. Howard, of Illinois, has left on a visit to Michigan.

The homestead survey party are at work out west of here.

The homestead inspector was a visitor to the Creek last week.

The services of Miss Taylor, of Winnipeg, have been secured for the Cache Creek school.

Mr. Telford intends putting his saw mill at Conjuring lake again this coming winter.

Oct. 30, '02.

HOTEL ARRIVALS.

Saturday.

Queen's—E. M. Pink, Prmbroke; W. A. White, M. Dickrell; O. Bush, Clover Bar; E. O'Neill, Leduc; W. M. Connors, Lanark; C. M. Evan, Toronto; C. S. Hickery, Lacombe.

THE WEATHER.

Snow last night. The first of the season. About two inches of light snow fell. There is no frost in the ground yet nor ice on the river. Sweet peas and asters and pansies are still in bloom in favorable localities.

YOUNG MEN'S INSTITUTE.

Last Thursday the debating society had an interesting and amusing time discussing proposed by-laws brought forward by the members for town regulation.

Stringent measures were supported for controlling the sale of milk, the erection of buildings on the Main st., the obstructing of sidewalks by improperly constructed screens and awnings, and other matters.

Mr. Aldridge, who presided with satisfaction to all, found that without undue haste the business could not be got through in one evening, so it was decided to adjourn and take up the consideration of the balance of the suggestions on next available occasion.

If it may be judged by the expressions of those present the continuation of the discussion will be lively and spirited.

AT THE RIFLE RANGES.

Class firing was continued at the ranges Saturday afternoon. The following scores were made;

ARRIVAL OF MISSIONARIES.

Communicated.

The Catholic church shows her divine institution in as much as she is ever actuated by divine charity. We have a striking example of this assertion in the zeal of Mgr. Legal.

Laterally there has been a great influx of Ruthenians to Edmonton and its environs. These people not knowing French or English were left to their own slender powers of resistance to withstand the alluring temptations of a schismatic priest, who could speak to them in their own language. Though with the aid of the good sisters F. C. J. strenuous efforts have been made to teach the young girls English, still we felt powerless to devote to the greater number the succor of cheering words or a helping hand. His Lordship Bishop Legal recognizing this difficulty saw the necessity of securing priests of their own rite. For this purpose he sent the Rev. F. Jan to Austria bearing the expenses which such a long journey entails. His zealous efforts were crowned with success; priests in whom the burning desire to spread the truth could not be diminished by hardships and privations generously responded to the invitation and made the sacrifice of home and country to preserve for their people the priceless gem of Catholic unity. The following missionaries arrived in Edmonton last Saturday;

R. P. Platmides, O. S. B. M,
R. T. Soson Dydyke, O. S. B. M.,
R. T. Antoine, Stronzki, O. S. B. M,
R. F. Jeremie Yaniscoski, O. S. B. M,
Rev. Bas. Zoldac, is still in Winnipeg.
Four Rev. Sisters arrived also.

There was a large assembly at the convent F. C. J. to welcome them. The good people tried to give expression to their welcome and their recognition of the noble sacrifices made in their behalf, but words failed them. In spite of the elation and satisfaction natural to the occasion, they were too deeply moved, tears of joy came to their rescue. It was truly an affecting scene, the tears were contageous to those who witnessed them.

It is to be hoped that under the fostering influence and inspiring instructions of these good missioners the Ruthenians of this diocese will have a grand future.

The good priests will leave to-day for St. Albert. They will return to-morrow with Mgr. Legal to visit Beaver lake, Rabbit Hills and other settlements.

On Wednesday evening there will be a reception for them at the C. M. B. A. night school. We hope the ladies with their usual kindness will allow the girls to attend.

CUSTOMS' RECEIPTS.

The total value of goods received at the Edmonton customs' office for the month of October was $26,586, and the duty collected on same $2,566.18.

Goods Choice Cheap

If you want the latest style and the best value for your money buy your Coat from us.

GROWING...

We note with great pleasure and satisfaction the daily increase in the business done in Edmonton's new Bookstore. Owing to the increased amount of stock we are compelled to carry, we have increased our store room to double its size. We now have over 1800 square feet of floor space—and a stock second to none between Winnipeg and Vancouver. It is now six months since we opened our doors and each day proves the popularity of this store by bringing with it NEW CUSTOMERS—and once with us, always with us. This due to the fact that we keep

The Right Goods at the Right prices

We invite you to visit our stock whether you wish to buy or not. Its a pleasure to show you around.

H. W. B. DOUGLAS,
